- K.B.patil school- 10th
Percentage 82%

About Me

As a recent graduate in computer science with a passion for web development, I'm excited to start my career as a full stack developer. Through my coursework and personal projects, I've gained experience in programming languages like JavaScript as well as front-end technologies like HTML, CSS, and React. I've also worked with databases MongoDB, Mongoose and have experience with back-end frameworks like Node.js and Express js

Work Experience

Omegasoft Technology Intern

Aug2022-feb2023

Key responsibilities:

- Building and maintaining user-facing features of a website or application
- Creating responsive and user-friendly designs that align with business requirements and brand guidelines
- Collaborating with back-end developers and designers to ensure seamless integration of front-end and back-end components
- Conducting testing and debugging of front-end components to ensure high-quality and bug-free code
